PROFESSIONAL SUMMARY

Full Stack and Mobile Developer with 3+ years of study and hands-on experience in real products. Specialized in React, React Native and TypeScript, with strong knowledge in modern web development using Next.js and Node.js. Certified by Harvard University (CS50 and CS50x). Proactive, results-driven, and committed to code quality, performance, and continuous product improvement.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Nervatech · May 2026 – Present · 1 month · Lagos, Nigeria · Remote

- Working on Prooflock, a data protection SaaS product, using React and JavaScript on the frontend.
- Collaborating with an international team on user authentication, new features, and frontend-backend integration.
- Operating in an agile environment with a focus on code quality and incremental delivery.

Mobile Developer — React Native

Pixel Logic Apps · Dec 2025 – Apr 2026 · 5 months · Remote

- Developed cross-platform applications using React Native and Expo, leading the full cycle — from conception through to final preparation for store submission (App Store & Google Play).
- Integrated REST APIs with robust error handling and efficient state management via TanStack Query.
- Built pixel-perfect, responsive interfaces in React Native from Figma designs with a strong UI/UX focus.
- Actively worked on componentization, refactoring, responsiveness, and bug fixes in a fully remote environment.

Freelance Web Developer

Self-employed · 2024 – 2025 · Remote

- Built responsive websites using React and Next.js for small businesses, achieving an average of up to 45% increase in client conversion rates.
- Created high-conversion landing pages focused on lead generation, reaching up to 35% improvement in qualified contact capture.
